Ellison Test Number:

ELL021

Date of Test:

20.05.2025

The Ellison Test is an independent assessment of the data sanitisation methods used at this facility. Conducted by a certified data sanitisation analyst, the test evaluates techniques for both data re-use and destruction across various types of storage media. For more information, visit: www.ellisontest.com/what-we-test

The test is conducted on a specific day, and the findings reflect the performance observed on that day.

Data Capability

This media was tested and passed by ADISA forensic analysts

	Reuse	Destruction
<u>Solid State Drive</u>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<u>Magnetic Hard Drive</u>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<u>Networking</u>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
