

# Ellison Test Certificate

The Ellison Test is the technical audit carried out as part of one of ADISA’s ITAD certifications and is only available to those certified to the ICT Asset Recovery Standard 8 or the ITAD Essentials Certification. The test is carried out at a facility to verify the toolsets used for data sanitisation and includes a forensic assessment of data recovery on a range of storage media. If the test confirms that the product works correctly, is being used properly, and no data was recovered, then the media type is approved (see page 2 of this certificate for details).

**Certification Number:** **AAC036.STD8** **AAC036.ESS** **Issue Date:** **02.12.2025**  
**Version Number:** **v1.0** **Expiry Date:** **02.12.2028**

Testing organisation and forensic analyst name:  
**ADISA CERTIFICATION LIMITED**  
**JOSHUA SHEPPARD**

**Pass**

**Computer Recyclers UK Ltd**  
**APOLLO HOUSE,**  
**PENYGRAIG INDUSTRIAL ESTATE, DINAS ROAD,**  
**PENYGRAIG, RHONDDA-CYNON-TAF, CF40 1HZ,**
